NATIONAL SHOW OF LIVESTOCK AND AGRICULTURAL EQUIPMENT

Dear business friends,

following its successful premiere in 2009, we would now like to invite you to take part in the 2nd National Show of Livestock and Agricultural Equipment, to be held in Brno June 23–26, 2011.

As was the case last year, this is to be a unique and extensive national presentation of livestock, feed and agricultural and farming equipment and technology.

The highlighted topic is to be the processing and use of biomass.

Based on the positive responses we have received, the National Show of Livestock and Agricultural Equipment will be held concurrently with the International Pet Supply Exhibition PROPET and associated International Dog Show INTERCANIS and International Cat Show INTERFELIS.

We look forward to mutual cooperation and seeing you at the show in 2011.
